## PROFESSIONAL SUMMARY

Detail-oriented Digital Design and Software Development student with hands-on experience in building web applications, conducting security testing, and creating user-centered designs. Skilled in both front-end and back-end development, including Java, Python, HTML/CSS, and JavaScript, as well as database integration. I blend creativity with technical problem-solving to deliver clean, functional, and secure digital solutions. My background is strengthened by AI-focused certifications that enhance my problem-solving, automation, and modern development workflow skills. Trained to manage multiple projects, quickly learn new technologies, and produce work that aligns with user needs and organizational goals. I am eager to use both my technical and creative strengths in a new role.

## CORE COMPETENCIES

## WORK EXPERIENCE

### Independent Contractor, Las Vegas, NV

2025 – Current

#### Web Developer

Developed and launched a responsive website and in the process of finishing another for clients across diverse industries. Managed all phases from initial consultation to final deployment. Implemented responsive design principles and optimized performance. Built a complete business kit along with the final website that included business cards and personalized logos to build brands that matched the websites.

- Collaborated with clients directly to define the project scope, gather requirements, and provide ongoing support, achieving an excellent client satisfaction rating.
- Managed project timelines delivering projects on schedule.
- Implemented responsive design working with HTML, CSS, and JavaScript to build final products.

### Outlier AI, Oakland, CA

2023 – Current

#### AI Writing Analyst and AI Language Trainer

Evaluated and refined AI-generated content focused on metrics such as accuracy, tone, and relevance. Contributed to multiple Multimodal AI projects that helped to build systems that better process multiple types of data simultaneously such as text, images, and audio.

- Provided high-quality data annotation and validation (Reinforcement Learning from Human Feedback – RLHF) for the next generation of LLM's.
- Reviewed Model output for quality and accuracy.
- Engaged in community events and team webinars always striving for continuous improvement of skills.

### Encore Hotel and Casino, Las Vegas, NV

2021 – 2022

#### Guest Services / Room Attendant

Improved guest satisfaction by maintaining cleanliness and sanitation standards in guest rooms.

- Managed and restocked room supplies and inventory including linens and toiletries.

- Effectively managed cleaning schedules for multiple rooms and multiple floors. Maintained a keen eye for detail to ensure that every aspect of the cleaning process was completed accurately and every room was kept up to standard.

### **Sun Solar Life, Las Vegas, NV**

**2018 – 2020**

#### **Solar Energy Consultant / Sales Representative**

Generated leads and acquired multiple residential solar contracts through consultative selling and needs assessments

- Advised and educated clients on the benefits and financial incentives of solar energy facilitating informed decision-making.
- Negotiated financing options for clients to ensure deals.
- Managed client portfolio and built strong client relationships that led to referrals.
- Managed and scheduled client meetings.

#### **Additional Work Experience:**

*Restaurant Manager, Hagerstown, MD*

*Phlebotomist, Danville Hospital, Huntingdon, PA*
